

Prabhakar Kumar

Lead UX / Product Designer | 12+ Years Experience

prabhakarmdes12@gmail.com | +91 9972934937

PROFESSIONAL SUMMARY

Lead UX/Product Designer with 12+ years of experience designing web, mobile and complex digital products across enterprise and consumer domains. Experienced across the end-to-end UX lifecycle including user research, information architecture, user journeys, interaction design, wireframing, prototyping, usability testing, responsive UI and scalable design systems. Strong experience collaborating with product, engineering and business stakeholders to translate requirements and complex workflows into intuitive, implementation-ready experiences. More recently working hands-on across product architecture, design systems and functional prototyping. M.Des from IIT Delhi, with professional experience at Infosys, Extentia, NetElixir and independent product consulting.

CORE COMPETENCIES

UX & Product Design: User Research · Requirement Analysis · Information Architecture · User Journeys · Interaction Design · Wireframing · Prototyping · Usability Testing · Responsive & Mobile-First Design · Visual/UI Design · Design Systems · Stakeholder Collaboration · Agile/Scrum

Accessibility: Working knowledge of accessibility and WCAG principles

Tools: Figma · Sketch · Adobe XD · Illustrator · Photoshop · InVision

Technical: HTML5 · CSS3 · JavaScript (working familiarity) · AI-assisted prototyping & implementation

PROFESSIONAL EXPERIENCE

Independent Product & UX Consultant

Product & UX Lead | Jun 2023 - Present

- Design and prototype complex web-based products, translating business and user requirements into information architecture, user journeys, workflows, wireframes, interfaces and reusable interaction patterns.
- Design multi-role experiences spanning customers, operators, administrators and service providers, with emphasis on state visibility, permissions, exception handling and responsive interaction.
- Develop reusable enterprise design-system patterns and implementation-ready UI components for dashboard and workflow-driven products.
- Work hands-on across Figma, product architecture and functional prototyping, using modern development and AI-assisted workflows to evaluate design decisions in working software.
- Designed operational concepts involving resource availability, role-based actions, telemetry freshness, alerts and human-authorized workflows, while maintaining explicit boundaries around uncertain or safety-sensitive information.

NetElixir, Hyderabad

UX Designer | May 2017 - Jun 2023

- Designed and evolved digital products and data-rich marketing technology experiences for SMB users.
- Translated user needs, business requirements and complex information into intuitive workflows and user interfaces.
- Created user-centered experiences to help SMB owners identify high-value customers and understand opportunities within digital marketing data.
- Applied user-centered design principles and iterative refinement to align product experiences with business objectives and evolving customer needs.

Prabhakar Kumar

Lead UX / Product Designer

PROFESSIONAL EXPERIENCE - CONTINUED

Extentia Technology, Bangalore

UX Designer | Feb 2016 - Feb 2017

- Designed enterprise application experiences and demo applications for SAP products across multiple lines of business.
- Collaborated with stakeholders and conducted user research to understand requirements and create intuitive product experiences.
- Created information architecture, wireframes, prototypes and user interfaces aligned with SAP UX principles.
- Conducted usability testing and iterative refinement to improve usability and consistency across business domains.

Infosys, Bangalore

UX Designer | Jul 2014 - Jan 2016

- Conducted user research and requirement analysis to understand user needs, project requirements and task objectives.
- Created design concepts, wireframes, prototypes and visual interfaces across digital products.
- Collaborated with developers, business analysts and product managers to translate requirements into user-centered solutions.
- Contributed to usability testing and iterative design improvements to create intuitive and efficient digital experiences.

SELECTED UX WORK

Marketing Analytics Dashboard - NetElixir

Enterprise UX · Data-rich interfaces · Complex workflows

Designed experiences for data-rich marketing and analytics products, translating complex business information into interfaces that helped SMB users understand customer and marketing opportunities.

Chiti Enterprise Design System

Design systems · Enterprise UI · Reusable components

Designed reusable interface patterns and components for dashboard and workflow-driven products, connecting product-level UX decisions with implementation-oriented component patterns.

Chiti Operational Systems

Complex systems UX · Role-based workflows · Operational dashboards

Designed and prototyped operational interfaces involving resource availability, permissions, alerts, telemetry freshness, exception states and human-authorized actions.

EDUCATION

Master of Design (M.Des) | IIT Delhi, New Delhi | 2012 - 2014

B.Tech - Computer Science | Gurukul Kangri University, Haridwar | 2008 - 2012

ADDITIONAL

Workshops: Design Thinking - NetElixir, Hyderabad · Photography - Infosys, Bangalore
